

EXTASIA ANTIQUITIES PRIVATE LABEL

Extasia is pleased to announce the acquisition of over 150 rare classical, antique miniatures. Purchase from our extensive commercial line, or let us develop exclusive, custom styles designed to showcase your museum's collection.

Created in the 1800's by European master sculptors and artisans, the plaster cameos are reproductions of classical Greco-Roman statuary and mythological scenes. Many of the images can be found in the Beazley Database at Oxford University, England.

Attached you will find sample photos of available images. To view all 150 images, please go to the Extasia Resource Center on our website: www.extasia.com

The styles are available in either mixed metal with our signature red bronze and sterling accents at prices shown on the Aegean line sheets, or in white metal with solid, single color plating in bronze, antique silver or gold. Choose accent stones of either Cubic Zirconia or faux glass pearls.

Prices below are for white metal product with a minimum purchase of 250 units/style. Images can be made into earrings, necklaces, bracelets, pins, rings and cufflinks.
